

PROFILE & PREQUALIFICATION

delivering excellence

TRAJECTORY

FROM CONCEPT TO CREATION

BUILDING SUCCESSFUL RELATIONSHIPS

YOU DREAM WE BUILD

TRADITION INNOVATION PERFORMANCE

SETTING STANDARDS IN CONSTRUCTION

COMMITTED TO QUALITY, LEADERSHIP, EXCELLENCE AND PERFECTION

- Turnkey projects
- Performance-driven culture
- Value-added construction service
- State-of-the-art equipment
- Latest technology

'A vision is a dream with a plan', so goes the saying. At Prestige, we strive to live up to this credo. Living by a philosophy is no miracle. However demanding be the circumstances, we deliver not just on time, but unbelievably far ahead! For us, if time flies, it is still trailing behind.

Over the years, Prestige Constructions has grown from strength to strength, laying each brick with strong ethics and morals. The development has been multi-faceted and richly diversified across the verticals of residential, commercial & retail, educational & healthcare and industrial. What we do speaks volumes more than what we profess. The multifarious range of projects we have accomplished till now imbibe our passion to think beyond conventions and actualize any dream into an immediate tangible experience.

Prestige Constructions has always laid emphasis on sustainable growth and has therefore reinvented itself with latest construction technologies and implementation of the best industry practices.

For decades, with each project and with each square foot built, Prestige Constructions has become the organization it is today. We have very strong presence in the Emirates of Dubai, Sharjah, Ajman, Abu Dhabi & Ras Al Khaimah and we are on an expansion spree.

Prestige Constructions under the able leadership of Engr. Choudhury has set ambitious targets for itself, and is at the fore front when it comes to professionalism, quality and service. It believes that innovation and adaptability is part of its corporate versatility. Its projects are exemplary and cater to the best of engineering and civic facilities, in relevance with the highest standards set by the UAE.

VISION

Prestige Constructions envisions establishing an unrivalled reputation of “under-commit, over-deliver”, in terms of time frame, costing and overall client’s expectations.

We will constantly strive for excellence in the pursuit of perfection in whatever we do.

MISSION

WE WILL STRIVE TO ACHIEVE, SURPASS AND BECOME THE CONSTRUCTION INDUSTRY'S BENCHMARK

Prestige Constructions will endeavour to become the benchmark through consistent delivery of globally standardized quality of construction. We are committed to Study, Understand, Research, Achieve, and Surpass international benchmarks in all the activities we perform.

WE WILL LEVERAGE PEOPLE & TECHNOLOGY TO DELIVER HIGH QUALITY RESULTS

Prestige Constructions will accomplish this by building a performance driven culture that continues to provide value-added construction services to our customers; by improving job-site productivity, maintaining a safe work-place, utilizing the latest technologies and by creating an environment that fosters the growth and development of our people. We will provide the desired support to our associates so that they can constantly enhance quality of their own work and in turn, achieve corporate objectives.

ABOUT THE CEO

The CEO of Prestige Constructions LLC, Engr. Nur Alam Choudhury is not only a charismatic entrepreneur but an exceptionally successful leader. Since the formation of Prestige, it has achieved an impressive legacy of successfully meeting its customers' requirements and exceeding their expectations. Meticulously he has completed projects across the UAE in the verticals of residential, retail, educational, social and industrial. Engr. Choudhury's strong leadership, strategic thinking, attention to detail coupled with his extensive knowledge and understanding of each & every aspect of the construction industry has contributed to the success and continued growth of Prestige. The CEO won laurels for himself among his contemporaries as he picked up projects that were ambitious. The commitment and quality showcased by Prestige under his able leadership has earned it a name and reputation with global and local recognition as well as numerous Quality and Business Awards in the US, UK and many European Countries.

Prestige is an outcome of his vision to introduce innovation and modernity in the construction sector, and he did it with thumbs up. Aptly blending modern technology, innovation, manpower and upto date market knowledge, the CEO - Engr. Choudhury has led Prestige Constructions LLC at the forefront of construction scenario in the UAE. With an ambition of diversification he has already expanded a number of associate businesses that complement Prestige's core construction activities.

Looking ahead, the CEO visualizes new insights in the strategy of Prestige to make it grow as the most trusted and reputed name in the construction sector across the globe. It's a thirst towards excellence and perfection that can never be quenched, he has always lived by the philosophy that "a vision is a dream with a plan".

"I believe in the art of possibility. Prestige is my brainchild and a landmark when it comes to the arena of constructions"

Engr. Nur Alam Choudhury
Chief Executive Officer

AHEAD, THE WAY TO BE

Our founder, CEO Engr. N. Alam Choudhury has seen the Emirates grow by leaps and bounds since his arrival back in 1997. Engr. Choudhury, a Rank holder in Civil Engineering from a top Indian college, belongs to the North Eastern state of Assam in India. Assam is known for its beautiful and scenic landscape with vast tea estates, famous Kaziranga National Park recognized for its single-horn rhinoceros and mighty Brahmaputra River. Engr. Choudhury has a proven track record of delivering successful projects in UAE market for the past 25 years.

UAE, under the wise leadership of His Highness The Emir, Khalifa Bin Zayed Al Nahyan has become the most sought after destination for tourism, diplomacy, trade and commerce; indeed it is the gateway to Middle East. This has provided a consistent, phenomenal growth in construction sector, thus we believe we will be able to outnumber our growth projection as we have been doing ever since we started.

Over the years, Prestige Constructions has been a cornerstone of development of infrastructure projects in all the emirates of the UAE, like Abu Dhabi, Dubai, Sharjah, Ajman & Ras Al Kaimah in a remarkable way. We will continue to invest in the most qualified, best-in-class talent to manage operations and project delivery. Our management team is backed by an international workforce of over 3000+ as well as 300+ highly professional Engineers, each trained to industry best practices and operating to fully accredited management systems, health, safety, and environmental sustainability standards. We use state-of-the-art equipment to help in participating in upcoming challenging large-scale projects. We are proud of our achievements to date and we are committed to continually enhancing our capabilities to ensure we remain at the forefront of our industry both in terms of client and project needs.

Prestige Constructions under the able leadership of Engr. Choudhury has set ambitious targets for itself, and is at the forefront when it comes to professionalism, quality and service. It believes that innovation and adaptability is part of its corporate versatility. Its projects are exemplary and cater to the best of engineering and civic facilities, in relevance with the highest standards set by the UAE.

Prestige Constructions has already expanded a number of associate businesses that complement their core construction activities. The associated businesses are formed through strategic joint ventures to provide specialist services including MEP, Joinery and Metal Works etc. CEO envisions that Prestige Constructions will soon be a company of 20,000 employees.

CHANGING PARADIGMS - THE EIGHT PILLARS

UNDER-COMMIT, OVER DELIVER

A commitment should be pursued by actualization- a philosophy drawing upon which, we have been growing at a RAPID pace. The trust of our clients matters much more to us than a burgeoning market share. Once we commit, we always deliver on time, within budget and with better quality.

We are certified with
ISO 9001: 2015
Quality Management System.

EMPLOYEE LOYALTY & SAFETY FISRT

We foster and promote a performance driven work culture. We provide a safe and healthy environment to ensure one of the best working conditions to prevent injury and ill health of all our company employees and other associated parties. We are always open, transparent and honest with our associates.

Our organization is certified with
OHSAS 45001: 2018
Occupational Health & Safety
Management System.

ENVIRONMENTALLY CONSCIOUS

We conduct the operations adhering to environment- friendly and green concepts. Fundamentally we follow all available compliances in this regard.

Our organization is certified with
GRS 14001: 2015 Environmental
Management Systems.

CLIENT FOCUS

Client Service and Delivery has been top priority since day one. We ensure timely, quality work to our clients. We establish lasting relationships with clients by exceeding expectations through integrity, innovation and commitment.

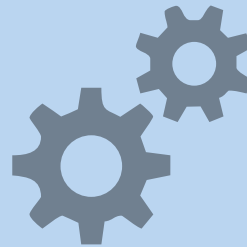

We provide a balanced economic value for investors and property owners through quality construction and best practice techniques. We are accountable and accessible.

CHANGING PARADIGMS - THE EIGHT PILLARS

INTEGRITY

We choose to be honest in all our business interactions and transactions and remain steadfast even when challenged. We are unrelenting and uncompromising when it comes to openness and transparency and this gets reflected in our dealings, activities and business transactions.

ORGANIZATION BEFORE SELF

We recognize that the interest of the organization is supreme, above individual preferences and goals. Individual desires are in line of organizational goals, which in turn are always client centric. The reputation of the organization is to be safeguarded resolutely and this is imbibed by every employee of the company. We believe in the principle of synergy and that the collective good is paramount.

TEAM WORK

We work harmoniously with a shared vision, energized by our collective talent. We trust, listen to, share with, empower and encourage team members and take collective responsibilities for the results. We believe that the combined and focused effort of the team leads to greater results being achieved in a better, faster and often economical way.

POSITIVE ATTITUDE

We always demonstrate a 'can-do' mind-set and engage confidently to deliver on organizational goals. We look upon challenging circumstances as opportunities to enhance our capabilities and find ways of achieving. We are sensitive to changing market dynamics and are proactively responsive to mild as well as volatile economic, political, social and regulatory scenarios.

WE ARE WHAT WE DO

There is no chasm between what we promise and what we deliver. We believe that dedicated effort is all it takes to translate any vision to a plan of action. This approach makes us stick to our standards while raising them constantly and thus live up to our name.

Check us to gauge our potential and let's make the next move together. You can reach us at prestigegroup.me and email at corporateprestigegroup.me to initiate a dialogue.

Prestige Constructions has not only ventured into constructing projects across the verticals of residential, commercial and retail, educational & healthcare and industrial but has also meticulously executed them successfully meeting its customers' requirements and exceeding their expectations. The two benchmarks - quality construction & on time delivery of project have well been maintained by our company over the years and has established an impressive legacy.

Commitment and professionalism are what Prestige adheres to as it scales new heights of success. Prestige Constructions has earned reputation and recognition for undertaking large complex projects fostering innovation, embracing emerging technologies and making a difference for their clients. Prestige Constructions excels in consistently offering resolute service, fresh creativity & extraordinary outcome. Turnkey services where design, build & let the client operate till final handing over of the projects is undertaken, is another key of Prestige.

Residential Infrastructure:

Taking into account the graph of construction related activities in the UAE, owing to increased demand for new residential and commercial units, Prestige has come up to the fullest expectations of its clients and undoubtedly our company has a roadmap and the commitment to do so. It has been successful in constructing various residential towers, building complexes, hi-end gated community with luxurious villas and mix raised buildings etc. We provide end to end service, ready to move in set up and turnkey services.

Commercial and Retail Infrastructure:

Prestige Constructions has introduced innovative and modern elements in the industry in order to differentiate it amongst its competitors. Our Company operates with the state-of-the-art machinery equipment and latest technology. Couple of prestigious Shopping malls across Dubai, Sharjah and Ajman have adorned the name of Prestige.

Educational and Social Infrastructure:

Prestige is built on a strong foundation of satisfying customers and is quite conscious of its clientele requirements. Noteworthy to mention that Educational edifices remain one core area of our Company and the evidence is more than a dozen of schools and universities across Dubai, Sharjah and Ajman being constructed under the able guidance and expertise of our CEO.

Industrial Infrastructure:

The portfolio of projects accomplished across the UAE demonstrates the dedication of Prestige to actualize any dream into reality. The dedication, perfection, quality, leadership and excellence manifested in each project by our Company is exceptional. Prestige has successfully delivered number of large industrial warehouses, batching plants and industrial buildings etc.

When we mean our infrastructure, we mean the growth-engine for your Business and more!

Over 3000+ Professionally trained resources and an equally huge physical infrastructure make us execute projects of any magnitude. With full-fledged offices in the Emirates of Abu Dhabi, Dubai, Sharjah, Ajman and Ras Al Khaimah, we are on an aggressive expansion-spreec. The range of world class equipment which adorns our armada of latest Construction Machineries, heavy Movable Equipment and a complete fleet of Transportation bear testimony to our approach that investing in infrastructure shouldn't just be huge, but wise as well.

"International Star for Leadership in Quality Award" (ISLQ)

Prestige Constructions LLC

From: Helena Hidalgo ISLQ (helena.hidalgo@bid-paris.com)
Sent: Wednesday, April 30, 2014 6:15 PM
To: info@prestigeconstructionsusa.com
Subject: Prestige Constructions LLC - BID Quality Award, Paris 2014

Prestige Constructions LLC
Attn: Managing Director
United Arab Emirates

Please be sure that this email reaches the Managing Director as soon as possible.

Dear Sir,

On March 10th, 2014, the President of Business Initiative Directions, Jose E. Prieto, sent a letter by post to the General Manager as an official notification designating Prestige Constructions LLC to receive the International Star for Leadership in Quality Award in the GOLD category.

The presentation of the Award will be held during the ceremony at the BID International Convention for Quality, Innovation and Excellence, in Paris, France on June 20th and 21st.

Enclosed with the letter of official notification there is information regarding the convention, as well as the benefits and details of your participation. For further clarification, we also recommend you to consult our website www.bid-paris.com with the login ID#14 and password: 974CA8.

As we have not yet received a response from Prestige Constructions LLC, we would be pleased to have the opportunity to discuss with you how you can contribute to the improvement of quality awareness in your strategic decisions.

Your presence to receive the BID International Star for Leadership in Quality Award will be significant at the 2014 International Quality Convention in Paris.

Sincerely,

Helena Hidalgo

Commitment of PRESTIGE CONSTRUCTIONS LLC to Quality

Our company accepts quality as a factor of development to become more competitive.

PRESTIGE CONSTRUCTIONS LLC is committed to publicizing this Quality Culture with employees, suppliers, clients and the community, supported by the QC100 Total Quality Management Model, the principles of which are the following:

- 1 Quality is a consequence of valuing customer satisfaction and obtaining positive business results.
- 2 Meet the quality levels established in the company in accordance with the QC100 Points of Quality.
- 3 Encourage participation and teamwork for decision making.
- 4 Satisfy the needs of our clients and meet their expectations.
- 5 Provide human resources, both technical and economic, to achieve continuous improvement and respect for the environment.
- 6 Manage human resources in our company to achieve the maximum potential.
- 7 Make employees aware of the importance of concentration on the most profitable areas of activity, to achieve the best business results.

The achievement of these seven principles by PRESTIGE CONSTRUCTIONS LLC will foster improvement for clients, employees, suppliers and all of the other persons who make up the company.

Kluge, Nor Alan Cservanay
CEO & Managing Director
PRESTIGE CONSTRUCTIONS LLC

Dear Sir,

I am honored to inform that the Societas Committee has nominated PRESTIGE CONSTRUCTIONS LLC for the prestigious international award in quality and management spheres - 'Best Enterprise'. This is in recognition of your excellent business reputation, effective management and constant growth of the enterprise. The head of the company is presented with the title 'Best Manager of the Year'.

Your company was chosen due to its adherence to the following criteria: investment attraction, high technologies, quality and staff for professional and modern management methods. The research was conducted by the analytical centres of the Europe Business Assembly (EBA, Oxford, UK).

To confirm the nomination kindly contact the Nomination Committee before 20 November and we will help with the application and documents submission.

December, traditionally is a month to summarize the year successes. The Europe Business Assembly is going to conclude its 2014 ratings, research and honours and award successful companies from different regions on December 30th 2014, in Vienna (Austria).

The Societas awards night will be the highlight of the EBA New Year Reception which will take place in famous Fellenshof palace (Vienna, Austria), on the 30th of December. Guests will get a unique opportunity to communicate and network with elite members of world economy, science and cultural spheres in relaxing aristocratic atmosphere. You also can enjoy the Silvester New Year's Ball at the Austrian emperor's residence, The Hofburg on December, 31. For more information, please visit our website: <http://www.ebamfuk.co.uk/en/about-vienna-2014>. The events program is attached.

The Best Enterprise project is financed by accreditation fees and sponsors. The accreditation for includes:

- preliminary selection of candidates and finalists (based on market context analysis involving national partners, embassies and trade missions, chambers of commerce, international and sociology agencies);
- technical registration and assistance of the official project report, award recommendation;
- placing the company's data in the official catalogue and the dynamic comparison list;
- placing the head's flag in the official catalogue and the successful manager's list;
- right to use the award brands (royalty) for PR and image;
- laureate's certificate, medal and personal badge;
- promotional and publicity services during the award ceremony, personal participation in the event.

We invite you to visit Vienna and to experience the pleasure of the Societas awards night and Silvester New Year's Ball (29-31, December 2014).

I look forward to hearing your response.

Yours sincerely,

RE: "EBA Achievements 2015"

Dear Sir,

It's my pleasure to inform that you have been selected as a nominee for the 'Manager of the Year' award. The Manager of the Year award recognises CEOs, company owners and top-managers who give a significant input to the success of their companies by advancing the best management practice and service for employees and customers. Your company was chosen as the Best regional Enterprise. This is in recognition for your excellent industry reputation, effective strategy and continuing expansion of the enterprise.

The research was conducted by the analytical centres of the Europe Business Assembly (EBA, Oxford, Great Britain). The selection of prominent business leaders is based on the following criteria: company performance and effectiveness, vision and leadership, innovativeness, creativity, professionalism, exceptional managerial skills, business ethics and corporate social responsibility.

Distinguished personalities representing regional businesses are to be acknowledged for their contribution to local economies and corporate successes at the International Achievements Forum, held by Europe Business Assembly on 21 April in the Institute of Directors, London, UK. The Institute of Directors has long been recognised as an influential and respected membership organisation in the UK. With more than 100 years' success, the IoD is a valued location for its members who include the most skilled and experienced business leaders in the world, representing the full business spectrum, from start-up entrepreneurs to directors in the public sector and CEOs of multinational organisations.

We are pleased to invite you to participate in the forum and present your company's successes and new projects to EBA members and representatives, including one of the leading UK business unions: the Thames Valley Chamber of Commerce. The project is financed by accreditation fees and sponsors. Please contact for accreditation before March 20, 2015. Event details are attached.

We will be glad to see you at the forum and as part of the award ceremony participants and hope you will find it useful for future success.

Yours sincerely,

Anna Corobets -
International Relations Manager

European Society for
Quality Research

"Prestige Constructions LLC,"
For Mr. Nur Alan Chandhury
PO Box 18490 Ajman,
the United Arab Emirates

February 24, 2015

Dear Mr. Nur Alan Chandhury:

In London (the United Kingdom), on **Monday, June 14th, 2015**, the European Society for Quality Research (ESQR), in the framework of its annual recognition program, will present the **ESQR's Quality Achievements Awards 2015** to selected companies, public administrations and organizations representing different sectors from Europe, Asia, the Americas, Africa and Australia, in its Convention to be held at a five-star hotel **George St. Paul's Hotel**. The ESQR's Quality Achievements Award recognizes the organizations, companies, public administrations and individuals that have demonstrated outstanding commitment, support and efforts to enhance and improve achievements in Quality management. It is our pleasure to inform you that **"Prestige Constructions LLC,"** has also been selected by the European Society for Quality Research to receive the above mentioned award in London, UK. Therefore, kindly invite you and/or the representative(s) of **"Prestige Constructions LLC,"** to participate in our Convention and receive the ESQR's Quality Achievements Award 2015 in London.

The Convention and the Awards giving ceremony with the Gala Dinner will take place on **Monday, June 14th, 2015**, at **George St. Paul's Hotel's** conference hall "Silver" (address: 10 Goldman Street, London EC4V 3AJ, the UK), situated in the heart of London's Financial District.

Business leaders, academic experts and quality professionals from all over the world will participate in the above mentioned event and the most significant moments will be covered by photographers and cameramen.

In the morning of the same day (June 14th, 2015), the morning conference is scheduled, where, besides the keynote speeches of quality experts, the participating companies, organizations and public administrations representatives will have as well an opportunity to offer a speech about their activities to the international audience and also to network with business leaders, academic experts, civil servants and diplomats from different countries. It will be a very good opportunity to meet and establish contacts with delegates from different countries and find to them possible partners, clients or investors.

The European Society for Quality Research (ESQR) is an organization, with Head Office in **Lausanne (Switzerland)**, dedicated to quality improvement and rigorous recognition and research. ESQR makes a positive contribution to quality culture through its annual conventions and award giving ceremonies in the major cities. It recognizes excellence, disseminates innovation and visionary thinking, spreads knowledge, shares conformity assessment practices and facilitates networking. You can see some of the winners of our research by visiting our website at www.esqr.org and by clicking on the section **OUR AWARD WINNERS** of our website.

We have attached a participative information sheet to the present notification where you can find details on participative conditions and scheduled program.

To confirm your participation in the award giving ceremony and the convention in London, please fill in the Participative Information Form (see the enclosed information sheet) and send it to the ESQR offices by e-mail info@esqr.org or fax + 41 21 312 58 55. You can also visit our website: www.esqr.org or call us: +41 21 312 58 52 and our international staff will be at your disposal to answer your questions in English, French or Spanish.

We are looking forward to meeting you at our Convention in London.

Sincerely,

Dr. A. Anton,
Executive Director

"The Recognition of Inspirational Company Award"

Houston, January 12, 2015

Engr. N. Alam Choudhury
Chief Executive Officer
PRESTIGE GROUP

I am writing to officially inform you that your company **PRESTIGE GROUP** has been selected as a winner of the world's most important business excellence award, THE BIZZ 2015.

WORLD COB has consistently gone above and beyond in its compliance with the evaluation criteria for business excellence, namely business leadership, the quality of its goods and/or services, management systems, innovation and creativity, corporate social responsibility, and its achievements. For this reason, we would like to congratulate you on having been chosen by our Evaluation Committee to receive this major business recognition.

We hope you will celebrate this great news with your stakeholders, including your team, clients, and suppliers. It would be a pleasure for us to personally hand this award to your company at one of the three award ceremonies planned for 2015:

THE BIZZ EUROPE 2015 – May 16, Athens, Greece

THE BIZZ AMERICAS 2015 – July 31 & August 1, Las Vegas, USA

THE BIZZ ARABIC 2015 – October 18, Muscat, Oman

We also invite you and your company to form part of the select group of Elite Members of the World Confederation of Businesses (**WORLD COB**).

We suggest that you contact our Regional Director as soon as possible in order to receive all the necessary information.

Congratulations once again. We would be honored to have you at one of our events.

Sincerely,

JESUS MORAN
CHIEF EXECUTIVE OFFICER

Dear Sir/Madame,

I am writing on behalf of the World Business Assembly organization. We are a non-governmental organization whose goals are to support and enable economic, public and philanthropic collaboration and management of important projects and initiatives at an international level. Members of WBA are business leaders, prominent scientists, politicians and experts from different fields with a proven record of success. WBA is present in more than 35 countries and this number has been increasing every year and WBA would like to cover geographically all countries in the world.

WBA Conference of Leaders and Socrates Award Ceremony is an impressive event with international publicity, which main function is to recognize successful organizations and their managers. The Official reception and Socrates Award Ceremony is the event highlight. The International Aristotle Nomination Committee is going to present the three major awards at the Socrates Award Ceremony, which is going to take place in Rome, Italy. Award winners come from all over the world and are recognized as one of the best at their professional area.

Eng. N. Alam Choudhury is invited to participate at the WBA Conference of Leaders and to receive the Golden European Award for Quality and Business Prestige at the Socrates Award Ceremony, which is going to take place on 26 - 27th March 2016 in Barcelona, Spain.

The Golden European Award for Quality and Business Prestige is targeted to businesses are inspiration for other businesses with their results, their management and their understanding. Europe is more than a geographical region and name, Europe means quality, values, integrity, co-operation and mutual respect.

Please contact me if you need further information.

Subject: Adverse notification for the 2016 International Star for Quality Award to Prestige Constructions LLC

Prestige Constructions LLC
 14500 Ashford Blvd
 Dear Sirs,

As President of ISAQ, I would like to take this opportunity to notify you that Prestige Constructions LLC has been chosen to receive the ISAQ Award, to be presented at the annual International Star for Quality Convention in Geneva on September 17th and 18th, 2016.

Having previously received a BID Quality Award, your organization holds the prestigious status of Honorary Member. As such, by receiving the 2016 ISAQ Award in the PLATINUM category, Prestige Constructions LLC is automatically designated as a strong force for quality and excellence.

Your official notification letter and Registration Form were previously sent by post to your address.

For further information on the Award, please refer to the event website at www.isaq.com. Should you have any questions or wish to receive the letter and Registration Form via email, do not hesitate to contact us at +34 91 597 02 00.

I would appreciate you confirming receipt of this email and your availability to attend International Star for Quality Convention. I wish you the best and look forward to sharing this event with you.

Yours sincerely,
 Jose E. Pineda

Principles of the QC100 Total Quality Management Model

Commitment of Prestige Constructions LLC to Quality

Our company views quality as a factor of development to become more competitive.

Prestige Constructions LLC is committed to publicizing this Quality Culture with employees, suppliers, clients and the community, supported by the QC100 Total Quality Management Model, the principles of which are the following:

Quality is a consequence of seeking customer satisfaction and obtaining positive business results.

Meet the quality levels established in the company in accordance with the QC100 Points of Quality.

Encourage participation and teamwork for decision making.

Satisfy the needs of our clients and meet their expectations.

Provide human resources, both technical and economic, to achieve continuous improvement and respect for the environment.

Manage human resources in our company to achieve maximum potential.

Make employees aware of the importance of concentration on the most profitable areas of activity, to achieve the best business results.

The achievement of these seven principles by Prestige Constructions LLC will foster improvement for clients, employees, suppliers and all of the other persons who make up the company.

United Arab Emirates

Dear Sirs:

As a preferred member of BID, Prestige Constructions LLC has been chosen by the Selection Committee to receive the International Arch of Europe Award (IAE) in the Diamond category in the year 2017 for commitment to Quality and Excellence.

This award will be presented during the International BID Quality Convention in Frankfurt on June 30th and July 1st, 2017. The Gala Awards Dinner and Ceremony will take place on Saturday, July 1st at 6:30 in the evening (18:30), in the spectacular Theatre Convention Hall, facing the Main River, in the historical zone of Frankfurt and near the financial sector. It will be attended by other companies and organizations from all over the world to receive the awards, together with outstanding business leaders, quality experts, personalities in the realm of culture and members of the diplomatic corps. The most significant moments of the participation of your delegated representative in the event will be covered by reporters, television cameras and photographers for the media.

BID throughout its history has provided endorsement through its corporate programs to companies and organizations in 179 countries, who have received the International BID Quality Award. Because of your recognition in the Diamond category, you will be given a place of honor at the event.

ImarPress (www.imapress.com), sponsor of the BID IAE International Arch of Europe Convention in Frankfurt, will cover the news regarding the participation of Prestige Constructions LLC for publication in several of its 26 magazines published in English, French, Spanish, Portuguese or Russian. The Imapress editorial team will be available to interview you during your stay in Germany.

To confirm attendance at the ceremony, please fill in and transmit the enclosed Registration Form to BID by email.

Sincerely,

Jose E. Prieto
President

"The Recognition of Inspirational Company Award"

Houston, February 28, 2018

Dear Elite Member:

ENGR. N. ALAM CHOUDHURY
CEO
PRESTIGE CONSTRUCTION LLC

It is my pleasure to greet you once again and welcome you as an Elite Member of the WORLDCOB family. I thank you on behalf of our Confederation for the trust you have placed in us over these years and pledge to continue working for you and providing benefits that foster the development of your company.

It is with great pleasure and excitement that I offer you my heartfelt congratulations on being selected as one of the companies that have earned the special edition **THE PEAK OF SUCCESS** award, which is only given out to companies that have been winners in previous editions of THE BIZZ and have remained at the peak of success. We know that it was not easy for your company to reach the top, but it is even more noteworthy to see that you have remained there.

We would be thrilled to serve you at our exclusive award ceremony **THE BIZZ EUROPE 2018**, which will take place on **May 02 & 03 in Prague, Czech Republic**. There, you will receive the major award which guarantees will be an unforgettable experience.

I would like to congratulate you once again on this well-deserved recognition, and ask that you extend our congratulations to the rest of your team. We invite you to make use of every benefit we offer, and participate in all activities organized by WORLDCOB for 2018. We remind you that our Institutional Department and our entire organization are here to serve you.

Yours truly,

Jesus J. Moran

PRESTIGE CONSTRUCTIONS

At the forefront of the UAE building scene

In conversation with **Engr Nur Alam Choudhury**, CEO of Prestige Constructions

Special to Gulf News

CEO of Prestige Constructions, Engr Nur Alam Choudhury is not only a charismatic entrepreneur but also an exceptionally successful leader. Since its formation, Prestige has achieved an impressive legacy of successfully meeting customers' requirements and exceeding their expectations. Choudhury's strong leadership, strategic thinking and attention to detail, coupled with his extensive knowledge and understanding of every aspect of the construction industry has contributed to the success and continued growth of Prestige. This commitment and quality has earned the brand global and local recognition as well as numerous quality and business awards in the US, UK and other European countries. He talks about the brand's growth strategy.

How would you assess growth in the UAE real estate sector?

The construction sector is at the core of the global economy. As an industry, construction accounts directly for 6 per cent of global GDP. The UAE currently has one of the most rapidly growing economies and is among the largest GDPs and energy consumption per capita in the world. One of the major sources of the UAE's non-oil revenues is the construction and real estate sector. Investment and business-friendly federal laws are key catalysts to this growth. Dubai alone witnessed major expansion in these sectors, making it a hub for some of the world's

biggest construction companies and developers. The real estate sector is undoubtedly a significant pillar of the economy and a primary source of diversification in the UAE.

The UAE's 2017 Annual Economic Report shows the real estate sector contributed to 10.3 per cent of GDP, in comparison with 16.7 per cent for the oil and natural gas sector. The construction industry is expected to contribute up to 11.5 per cent of the UAE's GDP in 2021.

Tell us about your current projects.

Prestige Constructions has an energetic staff of around 4,000 people, as well as 300 plus highly professional engineers who ensure that it lives up to the expectations of one of the most competitive industries in the UAE. Commitment and professionalism are what Prestige adheres to as it scales new heights of success. Prestige Constructions has earned reputation and recognition for undertaking large complex projects in the verticals of residential, retail, educational, social and industrial; fostering innovation, embracing emerging technologies, and making a difference for their clients. It has already created several landmark projects like a multi-specialty hospital, high-end gated community, educational complexes, high-rise buildings, industrial infrastructure etc. Other ongoing projects include commercial and residential buildings, shopping malls, school infrastructure, industrial units, mix-use buildings and hospitals across all the emirates.

Prestige is also executing construction of the Azizi Riviera 3 residential units along the Dubai Canal, a \$6.1 billion project. Prestige Constructions excels in consistently offering resilient service, fresh creativity & extraordinary outcomes. Turnkey services where design, construction till final handover over of the Project is undertaken, is another key area of Prestige.

Do you think digitalisation and smart government initiatives will further strengthen the UAE property sector?

The UAE Smart Government Initiative was launched by His Highness Sheikh Mohammed Bin Rashid Al Maktoum, Vice-President and Prime Minister of the UAE and Ruler of Dubai. Explaining the purpose of smart government, Sheikh Mohammed said the aim is "to enhance the leading position assumed by the UAE in the field of e-development and to keep pace with best international practices in this domain". The roadmap's next target is Smart Living, which holds huge potential for the construction and real estate development industry. The government has recognised the role of real estate developers and construction companies is crucial in delivering smart city projects.

Digital technology has begun to emerge in the engineering and construction industry. Building information modelling and other forms of virtual reality, 3D printing and cloud technology are helping drive costs down and increase productiv-

ity at construction sites around the world and the UAE is no exception.

Many experts have pointed out that the concept of sustainability should be integrated in all of the UAE's community developments. Do you agree?

Sustainability has become increasingly important in the UAE in the last few years. Dubai is campaigning on becoming one of the most sustainable cities in the world, with sustainability being one of the core themes of the EXPO 2020 plans. With the rapid development and change in the UAE, sustainability is more important than ever. Green building, sustainable construction and sustainable building is not merely about doing less harm to the environment than traditional construction. Instead, it is about optimising resources and being environmentally, socially and financially responsible throughout the entire building life cycle i.e. design, construction, operation, management, renovation and reconstruction. I do strongly agree that sustainability should be implemented and integrated in all of the UAE's community development. His Highness Sheikh Mohammed has encouraged creating a health-friendly and sustainable environmental development, which is about achieving a balance between economic development and environmental protection.

At Prestige, our commitment to sustainability implies putting effort to deliver Green Building solution to our clients, on reducing environmental impact of our operation, on educating and training our employees. Sustainable building projects certainly produce higher employee productivity and improved building efficiencies. Sustainability is implemented in all our projects having an inclusive and coordinated approach that involves core engineering and construction functions. This approach includes conceptualising, designing, and building the best projects for our valued clients and setting standards for the construction industry. ■

TESTIMONIALS

"Prestige addresses and resolves promptly and proactively all anticipated and unexpected issues with the help of their dedicated and professional team of engineers, which sets a high standard in addition to delivering excellence in quality. I take this opportunity to appreciate again Engr Nur Alam Choudhury who I know personally for his hard work, commitment and dedication. The effort and professionalism demonstrated by him is truly commendable."

H.H. Shaikh Sultan Bin Saqr Al Nasiri, Director of Ajman Office, Ministry of Economy, UAE

"We have been closely associating and collaborating with Engr Nur Alam Choudhury, CEO of Prestige Constructions for over five years. With nearly two decades of experience in the construction field, we can proudly say he is one of the most dynamic market leaders we have come across in the UAE's construction sector. Engr Alam's growth over the last few years has been phenomenal as he has undertaken both private and governmental jobs, delivering world-class projects."

Tharshay Moideen, Founder & President, Tharshay Group

"We have identified Prestige Construction led by Engr Alam Choudhury as a specialist in construction of high end purpose built educational institutions. The track record of Prestige and the professionalism of Engr Alam impressed us enough to award a prestigious school project. We look forward to working with him on many more projects across the UAE."

Dr Vajehat Hussain, CEO, Amity Education Group in the Middle East

"Engr Nur Alam Choudhury of Prestige Constructions is a new rising and dominant star in the field of construction industry and has an amazing ability to complete projects on time and at times even earlier than scheduled."

Haji Dr FA. Ibrahim, Chairman, Pace Group & Co-Founder, Malabar Gold

"I have known Engr Nur Alam Choudhury since quite some time, and found him to be a thorough professional who has always kept his clients' interests in mind before his own. I have nothing, but respect and admiration for Mr Nur!"

Shiraz Jameel, CEO, Al-Huzafa Furniture

"It was a pleasure working with Nur Alam Choudhury, whose commitment to high-quality construction, while maintaining time and budget constraints, made the project successful on several levels. Engr Choudhury's high level of professionalism, attention to detail and expert management provides a sound leadership to his team of dedicated professionals."

Ibrahim Khan, CEO, R Education and CUCA

"We have worked closely with Prestige on various construction projects and found them to be very proficient. They delivered projects within budget on time, with excellent quality. The CEO, Engr Nur Alam Choudhury is a man of great skill, high knowledge and profound expertise. With his business acumen and leadership quality, he created a well-reputed name in the construction sector in the UAE. Prestige Constructions will always be our preferred choice."

Abdul Aziz Al Jassri, General Manager, R Holding

PRESTIGE CONSTRUCTIONS LLC

SUSTAINABLE BUSINESS GROWTH AND TRANSPARENCY

Engr. Nur Alam Choudhury
CEO of Prestige Constructions LLC

Engr. Nur Alam Choudhury, CEO of Prestige Constructions LLC, shares his thoughts on UAE's construction sector and corporate culture

Possessing over a decade of experience, Prestige Constructions has seen phenomenal growth due to its commitment to high quality construction while maintaining time and budget constraints. Armed with the latest construction technology coupled with best industry practices, expert personnel, strong leadership and teamwork, the organisation has successfully executed several projects of varying range and stature.

"There has always been an emphasis on sustainable growth in Prestige, it has embarked and crossed with a strategic and planned view that reflects on each milestone. Our highly skilled workforce has grown to more than 3,000 employees, and we have fully equipped functional offices in Dubai and the Northern Emirates. We have also invested into a new state-of-the-art staff accommodation centre in Dubai Investment Park," says Engr. Nur Alam Choudhury, CEO of Prestige Constructions LLC.

Engr. Choudhury explained that there is now a visible shift of business policies in the UAE towards the non-oil sector. Several strategies are in place to promote its overall economic and social position and to diversify its national income based on a sustainable and knowledge-based economy.

"The journey of Prestige over the last decade since its inception has been a tumultuous one having its ebb and flow. However, what I never compromised was quality construction and commitment to timely delivery of the projects. My endeavour has always been to make Prestige a benchmark through consistent delivery of globally standardised quality of

construction," he adds.

Its portfolio of projects accomplished across the UAE demonstrates its dedication to actualise any dream into reality. Prestige Constructions is experienced in educational edifices, healthcare buildings, residential and commercial towers, as well as industrial infrastructure.

"The dedication, perfection, quality, leadership and excellence manifested in each project by our team is stunning and exceptional. The company has strengthened its impact in making its presence felt in the construction industry across the UAE and successfully created a name," Engr. Choudhury says.

The commitment and quality showcased by Prestige have earned it a name and reputation with global and local recognition, as well as numerous Quality and Business Awards across the US, UK and European countries.

"Recently, Prestige has been awarded a contract worth Dh952 million for the construction of residential buildings (Riviera Project), which faces the Dubai Canal, and the Boulevard by Azizi Developments, which is one of the leading private developers in the UAE," he adds.

The dream envisaged by the late Sheikh Zayed bin Sultan Al Nahyan and late Sheikh Rashid bin Saeeed Al Maktoum was to create a stable and affluent country with a robust commercial backbone. Diversification remains the key to achieve sustainable growth in the UAE and the federal government under the guidance of its two visionary leaders. The President, His Highness Sheikh Khalifa bin Zayed Al Nahyan, and His Highness Sheikh Mohammed bin Rashid Al Maktoum, Vice-President and Prime Minister of the UAE and Ruler of Dubai, is optimistic about encouraging the non-oil sector to maintain its significant role in the country's economy.

According to Engr. Choudhury, business-friendly regulatory mechanism and ample liquidity are the reasons behind the growth in the construction sector. Further, it has

been buoyed by the liberalisation of real estate and property laws.

Dubai was the first emirate in the UAE to introduce the concept of freehold real estate projects followed by Ajman. One-stop locations for paperwork and 100 per cent foreign ownership have also intensified this particular sector.

"Such policies and corporate culture are not only relevant but effective as well for the construction industry to boom. If we compare the cost of construction in the UAE, it is much lower than most developed countries. The continued influx of expatriates from all over the world has turned this country into a hub for some of the best projects across the globe," he says.

Noteworthy to mention is that smart functioning, as well as prompt and appropriate action by the Authority, has been able to prevent monopoly and promote fair competition that leads to transparency in the overall business scenario.

"Truly the UAE is a land full of opportunities — a desert transformed into a green haven; a dreamland of Sheikh Zayed. Prestige Constructions is indebted to this country and feels proud to be a part of UAE's success journey," he says.

Looking ahead, Engr. Choudhury visualises new insights in the strategy of Prestige Constructions to help it to grow as the most trusted and reputed name in the construction industry across the globe.

"Further in tune with H.H. Sheikh Mohammed's Green Economy and Green Building Initiative under the slogan: 'A Green Economy for Sustainable Development', I would like to see myself planning and executing more environment friendly constructions as per the norms of Dubai's Green Buildings Regulations and Specifications so that Prestige can also be a part of achieving a balance between the economic development and environmental protection in the UAE," he concludes.

Engr. Nur Alam Choudhury, CEO of Prestige Constructions shares his thoughts on UAE's Construction Sector and Corporate Culture, published in Corporate Icons of UAE (Khaleej Times Special Report) -September 30, 2018.

Our CEO, Engr. Nur Alam Choudhury's expert opinion on the business environment created by UAE government published on 15th August 2018 in the special report of Khaleej Times as a mark of India's Independence Day

RAISING THE BAR IN THE REAL ESTATE SECTOR

Engr. Nur Alam Choudhury, Chief Executive Officer, Prestige Constructions LLC

Dedication and on-time delivery is Prestige Constructions' trademark, as it goes on to build new landmarks

BY SHANTHI AJI MENON

Eng. Nur Alam Choudhury is an exceptionally successful leader. He has been with his passion and has made a mark on the construction landscape of the UAE. The Chief Executive Officer of Prestige Constructions LLC is humble and down-to-earth, as he sees the success in owing to team work, and the opportunities that the UAE offers his business and development. Prestige came into being in 2007, as after almost a decade of struggle, Engr. Choudhury led the effort from a non-independent identity to a brand. Prestige is an outcome of his vision to set a new benchmark and modernity in the construction sector, and he did it with the help of:

The CEO segment runs smoothly for himself among his staff, respect and discipline in projects that are ambitious, and were instrumental in helping the UAE become a magnet in the real estate sector.

From exclusive interviews with *Money Times*, the CEO of Prestige Constructions said that there are two benchmarks in the construction industry: One, quality of construction and two, on-time delivery of projects. He takes pride in the fact that his company has come up to the expectations of the clients on both the counts, and this is why Prestige Constructions enjoys the reputation of a consistent developer.

Engr. Choudhury has an energetic staff of around 4,000 people, mostly highly professional engineers who ensure that Prestige lives up to the expectations of one of the most competitive industries in the UAE.

"We are not stereotyped as we do construct all kinds of projects in the verticals of residential, retail, educational, social, industrial, health, Prestige has done everything well." Choudhury continues with a confident smile on his face. The work environment at his office is one of great coordination and teamwork, making it as friendly as a family at work, but commitment and professionalism are what Prestige adheres to as it scales new heights of success, which is an outcome of Engr. Choudhury's insight for a second-house company.

Prestige is a recipient of several local and international awards and has successfully delivered multiple number of landmark projects. To date, of five, more hospital projects for 500 beds and a specialty hospital for Gulf Medical University, City University College of Ajman, high-end gated community at 41 Zarah and many more. Noteworthy to mention that five school buildings were also built by Prestige, as much as three that has constructed more than 13 schools across the Emirates and five projects on the way to completion.

Commercial residential buildings and shopping malls in Ajman, school infrastructure in Sharjah, the school centre in Jebel Ali, multi-story buildings in Yas Viceroy Village Park and Yas Viceroy Village Shopping Mall Hospital in Dubai are few ongoing projects for Prestige in UAE. He further takes pride that Prestige is not

waiting around for the 4000 Rivers 1 residential units along the Dubai Canal. "It is a 4000-unit urban project, and we plan to complete it in 18 months," Choudhury confidently declared.

The CEO says that the UAE is growing and there is no looking back. He is convinced that the construction boom in the UAE will have its tribulations, and states it is a policy saying that his company bids on a minimum of 15 to 20 projects every month. "This reflects the buoyancy of the construction industry, and it destined to go a long way," Choudhury pointed out. He went on to say that he prefers building on high value projects as they facilitate the quality of our services and it also cost-effective.

While elucidating the construction in such a short period, Choudhury said that more than 80 per cent of the staff is from the local and subcontinent, and ultimately contributing towards the foreign exchange.

He is all praise for the success of the UAE. "The dream envisaged by Sheikh Zayed bin Sultan Al Nahyan and Sheikh Khalifa bin Zayed Al Nahyan was to create a strong and affluent country having a strong commercial backbone. The UAE offers the greatest opportunity for the growth in the construction industry, and I grabbed it. The UAE's system is very supportive and we believe that we have done a great job to the best of our abilities."

The Prestige CEO said, "The business model is maintained consistently by the fact that the UAE is supported and supported." He recalled that in the early 2000s, when Prestige opened its arms in the desert land with two dreams and aspirations, global economic crisis took hold of GCC countries, especially the UAE, and rendered investors of speculative capital at risk. Nevertheless,

Prestige overcame and made a strong foundation out of economic recession. "I'm confident, and believe in the fact of possibility. Prestige is my intellectual and a hard work when it comes to the success of construction," he enthused.

Choudhury believes in regulations, and Prestige Constructions has already supported a number of associate businesses that completed their core construction activities. The associated businesses are formed through strategic joint ventures to provide specialist services including MEP, Joinery and Metal Works etc. The ventures that Prestige Constructions will soon be a company of 20,000 employees, as "I treat the employees as my workforce."

WE ARE NOT STEREOTYPED AS WE DO CONSTRUCT ALL KINDS OF PROJECTS IN THE VERTICALS OF RESIDENTIAL, RETAIL, EDUCATIONAL, SOCIAL, INDUSTRIAL, IN WHICH PRESTIGE HAS DONE EXCEPTIONALLY WELL.

Engr. Nur Alam Choudhury

PRESTIGE IS DESTINED TO BUILD LAND MARKS

The company has introduced innovative and modern techniques in the construction industry and is at the vanguard of change

Prestige Constructions LLC brings with it two decades of experience, and in the time its policy is to employ strong work ethics and strive for success. The company's specialty is to guarantee timely delivery of projects and that too without compromising on quality.

Prestige is well on a strong foundation of satisfying customers, and in some occasions of its clients' requirements. Having worked with big names in the industry, it enjoys great respect and a popular name across Ajman, Dubai and Sharjah. The company has plans for expansion of services in the UAE.

Prestige Constructions has introduced innovative and modern techniques in the industry in order to differentiate it amongst the competitors. Prestige operates with the state-of-the-art machinery and equipment and ensure timely delivery of projects.

Prestige has worked on numerous large-scale projects, which has elevated its status in the UAE. The projects that have made Prestige in the UAE are:

The CEO of Prestige Constructions, Engr. Nur Alam Choudhury, has led the company with passion, and has a dream to make it big. For him, the fact and the company is the economic driver that the UAE offers for business leaders from across the world. This has helped Prestige Constructions to well to make leaps in the construction industry with new ideas and a developmental focus. Moreover, the liberalisation of real estate and property laws have made it a big success.

Completion of the hotel and other projects, one window solution, 100 percent foreign ownership, has completely helped the construction sector. One of the main reasons for the UAE's success is compared to other developing countries. Likewise, construction of the country from all over the world has paved the way for a rich life for some of the best cases in the world.

The CEO believes that he has been at the right place at the right time when the need of Prestige Constructions was seen the business fertile land of the UAE.

The UAE's construction industry is one of the most promising in the GCC region. In the early 2000s, Prestige has further cemented the rise of UAE as a construction magnet in the region, as several industrial, commercial and residential projects are coming up. A research study by Knight Frank, an international property

THE UAE'S CONSTRUCTION INDUSTRY IS ONE OF THE MOST PROMISING IN THE GCC REGION. ADDITIONALLY, EXPO 2020 HAS FURTHER CEMENTED THE RISE OF UAE AS A CONSTRUCTION MAGNATE IN THE REGION

industry consultancy, says that the UAE's industrial sector has grown by 21 per cent in the last 10 years. It hopes that the state will continue to play a major role in the decade to come. Many have also stated, in Dubai particularly, which has not only become a magnet for many projects as possible, therefore leading construction companies such as Prestige to help build new dreams. With Expo 2020 around the corner, the construction is expected to grow in a big way.

Looking into the growth of the industry in the region, it is clear that the UAE, owing to increased demand for new residential and commercial units, it is crucial for Prestige to come up to the expectations of its clients. Diversification remains the key to achieve sustainable growth in the UAE and the global markets and the globalisation of its two visionary leaders, Engr. Sheikh Khalifa bin Zayed Al Nahyan and Sheikh Mohammed bin Rashid Al Maktoum is quite aptly ahead of re-energising the real-estate sector to play a major role in the country's economic. Prestige has a leading and the vision to do so. It has adopted an environment-friendly approach to its construction profile, and has one of the best practices at work. This is why Prestige has been awarded various ISO and safety Certifications by Quality Register Systems which is accredited by Dubai Accredited for Environment (DAE). This certificate commits Prestige to environmental, team and provides a framework for the organisation to adhere to. Prestige is committed to reducing carbon footprint, without compromising its service or delivery quality. The results has allowed Prestige to attract a larger number of customers who are environmentally conscious.

Prestige Constructions under the able leadership of Engr. Choudhury has set ambitious targets for itself and is at the forefront when it comes to professionalism, quality and service. It believes that innovation and adaptability is part of its corporate versatility. Its projects are contemporary and cater to the best of the best in the real-estate sector with the highest standards set by the UAE.

EN ROUTE TO EXCEPTIONAL GROWTH

The UAE's construction sector fans the flames of progress, says CEO of PRESTIGE CONSTRUCTIONS LLC

By Engr. Nur Alam Choudhury

Boasting a strategic location, the UAE has long served as a gateway to the Middle East, becoming one of the most sought-after destinations for tourism, diplomacy, trade and commerce. The country further prospered in the fields of society, politics, economy and culture, under the wise leadership and guidance of its two visionary leaders, The President, His Highness Sheikh Khalifa bin Zayed Al Nahyan, and His Highness Sheikh Mohammed bin Rashid Al Maktoum, Vice-President and Prime Minister of the UAE and Ruler of Dubai. These has caused enormous growth of the Construction sector.

The UAE currently has one of the most rapidly growing economies and is among the largest GDPs and energy consumption per capita in the world. One of the major sources of the UAE's non-oil revenue is the construction and real estate sector. Investment and business friendly Federal laws are key catalysts to this pioneering growth and stupendous success. Dubai alone has witnessed major expansion in these sectors, making it a hub for some of the world's biggest construction companies and developers, such as but not limited to Nakheel PJS, Emaar Properties PJS, AZI Developers, etc. Factors that contribute to its growth include a transient expatriate population and friendly regulatory environment.

Freezones, too, have created a major catalyst for local and foreign investment by offering incentives such as 100 per cent foreign ownership, and exemption from import duties and taxes.

The UAE continues to charm with aesthetically beautiful sky scrapers, engineering marvel, unique construction, which have ushered new phase in tourism into the country. The direct GDP contribution of the travel and tourism sector, according to the UAE Ministry of Economy, was Dh68.5 billion in 2016, which is equivalent to 5.2 per cent of the total GDP.

Government of UAE's Economic Report of 2018 reveals that in terms of Economic Openness, and in terms of Business Environment, Infrastructure and Technological Advancement its Global Ranking is 3rd and 4th respectively. The UAE's sound economic policies form the basis for its buoyant economic outlook. Most of the latest policies center on reforms and improvements for facilitating the transition to a Post-Oil Era. The UAE Central Bank expects the UAE's non-oil sector to grow 3.1 per cent in 2017 and rise further to 3.5 per cent in 2018.

Ideal destination for phenomenal growth

Undoubtedly, the UAE is the most sought-after destination for trade, commerce and tourism, UAE has always provided consistent, phenomenal growth in the construction sector, alongside advanced infrastructural facilities in all fields. The strong framework in place prohibits monopoly and encourages competition, advocates private sector growth, and maintains liberal policies in terms of foreign

exchange controls, visa policies and import regulation. Further, its strong ties with key trade associations strengthen its position as an open economy and player in the international trade and competition. Undoubtedly and undeniably catering a dynamic consumer base is being fuelled by such developments.

Today's consumers and clients emphasize aggressively towards timely execution and perfection. More so, a vibrant and dynamic market like UAE demands a clear understanding of modern technology and latest construction trends. I do strongly believe that a vision is a dream with a plan. Living by philosophy is no miracle. No matter how demanding the circumstances may be, we must deliver not just on time, but unbelievably far ahead. I must assert that a perfect concoction of dedication, commitment, passion, knowledge is indispensable towards catering dynamic customer base in the UAE.

An apt knowledge of the industry's latest trends, elaborate understanding of consumer's demand, coordinating with customers, resolving issues quickly, attending to customers' needs ought to be prioritised for Construction Companies to have unrivalled and inimitable reputation in UAE's ever flourishing market.

Strong framework for development

Since the formation of the UAE, it has witnessed consecutive developments in the economic field. The legal and regulatory framework of the UAE aims to march towards business and investment friendly policies. It boasts of establishing an income level at par with industrialised nations.

The UAE's construction sector, in particular, has witnessed growth of approximately 4 per cent in 2017 compared to 2016. As one of the most rapidly growing economies in the Middle East, the UAE has experienced enormous investment in the construction industry from public and private enterprises during the past few years.

As a percentage of the UAE's GDP, the construction industry contributed 10.6 per cent in 2008 and 10.3 per cent in 2011. For 2015 & 2021, it is expected to contribute 10.6 percent & 11.5 percent respectively. The UAE's construction industry is witnessing strong growth in coming years as more than Dh127 billion worth of urban, industrial, transport, utilities as well as oil and gas projects are in the nascent stage.

Looking at economic diversification and the relative importance of economic activities in the GDP, preliminary estimates show that GDP of non-oil sectors amounted to Dh1,067.3 billion, up by 3.9 per cent, which confirms the UAE's positive route towards its 2021 vision, its strategy to develop non-oil sectors and reduce dependence on oil.

The UAE was ranked the 1st in the region and 10th in the world's most competitive countries, according to the World Competitiveness Yearbook last year.

Latest trends in the industry

In the ever competitive world, when rapid development in technology is round the corner, Construction Industry is also aiming to achieve newer heights. The use of 3D Printing is latest in this domain. His Highness Sheikh Mohammed bin Rashid Al Maktoum, Vice-President and Prime Minister of UAE and Ruler of Dubai recently launched the 'Dubai 3D Printing Strategy', a unique global initiative that aims to exploit technology for the service of humanity and promote the status of the UAE and Dubai as a leading hub of 3D printing technology by the year 2030.

Another trend which is being discussed and implemented worldwide is Sustainability and UAE's Construction sector is no exception. Dubai is campaigning spear headedly its objective of being one of the most sustainable cities in the world, its sustainability being one of the core themes of the Expo 2020 plans. The city is also undergoing

construction in the run up to the event with focus on 30 per cent recycled materials and 50 per cent power generated from renewable sources on the expo site.

'Dubai Green Building Initiative' too is a new trend which is one of the visions of His Highness Sheikh Mohammed bin Rashid Al Maktoum, Vice-President and Prime Minister of the UAE and Ruler of Dubai. He focuses on creating a health-friendly and sustainable environmental development, which is about achieving a balance between the economic development and environmental protection.

Being a veteran of this Sector my opinion is that apart from technological development we must also focus that more collaborative technologies are being opted like teamwork and friendly interaction among Clients, Consultants, Project Managers, Main Contractors and Sub Contractors. It would bring more productivity and increased ability for successful completion of projects on time and within budget.

The UAE tops the list in the Construction market globally and is quite optimistic & confident of delivering further growth with each passing year.

Building bridges between clients and community

Engr. Nur Alam Choudhury – Page 18

PRESTIGE CONSTRUCTIONS LLC LEADS WITH A PERFORMANCE-DRIVEN CULTURE AND VALUE-ADDED SERVICES

Building bridges between clients and community

Anyone who meets Engr. Nur Alam Choudhury will soon come to realise that he's neither a man of limited ambition nor is he easily contented. As the Chief Executive Officer of Prestige Constructions LLC, he has forged a career by ignoring others when they tell him that something cannot be done. He is a proactive and visionary leader with utmost dedication to his work. Engr. Choudhury has taken the civil and building construction company to greater heights.

Prestige Constructions LLC is an ISO-Certified Organisation that maintains an Integrated Management System complying with:

- ISO 9001:2015 Quality Management System
- QRS 14001:2015 Environmental Management System
- OHSAS 18001:2007 Occupational Health and Safety Management System
- QC 100:2014 Total Quality Management

Prestige Construction LLC's growth has been a sustained one and its endeavours have been recognised with many awards and accolades locally and globally for its commitment and excellence, to name a few:

- Delivery Excellency Award by Sheikh Sultan bin Saqr Al Nua'imi, 2013, UAE
- International Star for Leadership in Quality Award by Europe Business Assembly, 2014, Paris
- Best Enterprise and Best Manager of the Year Award by Europe Business Assembly, 2014, Vienna
- Best Construction Company in Ajman

by Ajman Municipality, 2015

- Quality Achievement Award by European Society Quality Research, 2015, London
- European Quality Award by Institute Of Directors, 2015, London
- Inspirational Company Award by World Conference Of Business, 2015, U.S.
- Excellence and Quality Award by Tarweej Academy, Middle East, 2015,

Dubai

- International Star for Quality Award by Business Initiative Directions, 2016, Geneva
- World Business Assembly Certificate by World Business Assembly, 2016, Italy
- Appreciation Memento by Sheikh Majid bin Rashid Al Nua'imi and Thambay Moïdeen, 2016, Dubai
- Golden European Award for Quality and Business by World Business Assembly, 2016, Spain
- International Arch Of Europe by Business Initiative Directions, 2017, Frankfurt, Germany
- Entrepreneurial Excellence Award by Indywood Interior and Architecture Excellence Award, 2017, UAE

Apart from these, Engr. Choudhury has also been felicitated in his home country by being awarded Pravasi

Bharathi Award in the year 2016.

These recognitions not only motivated, but also empowered its staff to deliver quality service to its clients.

Prestige Constructions has been strengthening its stance in the region and making a global impact in the construction market over a span of 11 years. With an impressive portfolio of diverse projects, which have become landmarks in Ajman, Sharjah and

Dubai, Prestige has tapped into Residential, Commercial and Retail, Educational, Healthcare and Industrial arenas. The major role of Prestige Constructions LLC is in creating, constructing and maintaining physical assets for the society.

Engr. Choudhury is the charismatic CEO and founder of the successful entity, who came to the UAE 21 years ago with a dream that he turned into a reality. Excerpts from the interview:

TELL US WHAT DREW YOU TO THIS INDUSTRY AND YOUR EARLY BEGINNINGS, TRIUMPHS AND CHALLENGES.

I am a Civil Engineer by profession and established Prestige Constructions 11 years ago. Engineering has always been my passion. With innovativeness coupled with analysing the market in the UAE and identifying growth prospects in the construction sector, I set forth to establish Prestige Constructions LLC. In my opinion, the UAE Government has the most supportive system and encourages businesses to surpass set benchmarks. The opportunities here are

Dr. Jumana El Khoury, CEO, Wonderland

endless and innovation is incorporated into various streams. For Prestige, the UAE is the perfect headquarters in every sensibility, and we have been able to mark our global footprint by being a homegrown organisation.

HOW HAS PRESTIGE CONSTRUCTIONS GROWN SINCE ITS INCEPTION. WHAT STRATEGIES HAVE MADE IT SUCCESSFUL? COMMENT ON THE DEVELOPMENT AND STANDOUT PROJECTS.

Having spent 20-plus years working in the Middle East, we have our sights set firmly on further growing and diversifying the business, and to build a relationship with our clients. Apart from our commitment to quality, we are dedicated to delivering on time. Most of our clients are repeat clients as they are satisfied with our service and it is expected that this proportion will increase.

We invest in the most qualified, best-in-class talent to manage operations and project delivery. Our strength lies in the dedicated team of engineers and a fleet of machinery, which is the most superior of its kind.

Some of our ongoing standout projects are three educational buildings for PACE Group, 300-bed hospital for Gulf Medical University, City University College of Ajman (CUCA), and Amity School, and several residential and commercial towers for the Government of Ajman.

Over the years, Prestige Constructions has successfully delivered multiple projects in the vertical. Amalgamation of technology, personnel and expertise is the secret behind our success. "Under commit, over deliver" has always been our vision. At Prestige, we strive to live up to the credo. Living by a philosophy is no miracle. No matter how demanding the circumstances may be, we deliver not just on time, but unbelievably far ahead. For us, if time flies, it's still trailing behind.

ARE THERE ANY PLANS TO EXPLORE OTHER ARENAS? WILL PRESTIGE CONSTRUCTIONS BE EXPANDING INTO OTHER INDUSTRIES?

Personally, I believe in continuously striving to attain more than what has been accomplished. It is a thirst towards excellence and perfection that can never be quenched. We are looking to tap into other industries as well,

"Prestige Constructions LLC addresses and resolves promptly and proactively all anticipated and unexpected issues with the help of their dedicated and professional team of Engineers which sets a high standard in addition to delivering excellence in quality.

I take this opportunity to appreciate again Engr. Nur Alam Choudhury who I know personally for his hard work, commitment and dedication. The effort and professionalism demonstrated by him is truly commendable."

H.H. Shelkh Sultan Bin Saqr Al Nuaimi, Director of Ministry of Economy And Planning

"We have been closely associating and collaborating with Engr. Nur Alam Choudhury, CEO of Prestige Constructions for over five years. With nearly two decades of experience in the construction field, we can proudly say he is one of the most dynamic market leaders we have come across in the UAE's construction sector.

Having worked on multiple projects with Prestige Constructions, we are delighted by the high quality; time bound delivery of their work.

Engr. Alam's growth over the last few years has been phenomenal as he has undertaken both private and governmental jobs, delivering world-class projects.

We look forward to working more closely on new Thumbay projects in the near future."

Thumbay Moldeen, Founder & President, Thumbay Group

"We have identified Prestige Construction led by Engr. Alam Choudhury as a specialist in construction of high end purpose built educational institutions. The track record of Prestige and the professionalism of Engr. Alam impressed us enough to award a prestigious school project. We look forward to working with him on many more projects across the UAE"

Dr. Vajahat Hussain, CEO of Amity Education Group In Middle East

"Mr. Nur Alam Choudhury of Prestige Constructions LLC is a new rising and dominant star in the field of construction, concentrating on Dubai, Sharjah and Ajman emirates. He has an amazing ability to complete projects on time and at times even earlier than scheduled. While he is busy in meeting rooms evaluating his existing contracts or negotiating new ones his dedicated team of Senior Managers and Engineers are delegated to sites for detailed supervision and scrutiny.

We the PACE Group are highly satisfied with his performance as a Contractor for their prompt, responsive and professional approach to many of our projects undertaken by his Prestige Constructions LLC."

Haji Dr. P. A. Ibrahim, Chairman Pace Group & Co-Founder, Malabar Gold

"Prestige was entrusted with the construction of the City School campus and CUCA new campus, both being part of the READ Development.

It was a pleasure working with Engr. Nur Alam Choudhury, whose commitment to high quality construction, while maintaining time and budget constraints, made the project successful on several levels. Engr. Choudhury's high level of professionalism, attention to detail and expert management provides a sound leadership to his team of dedicated professionals."

Imran Khan, CEO, R Education and Academic Development/ President, City University College of Ajman & City School

"We have worked closely with Prestige on various construction projects and found them to be very proficient. They delivered projects within budget and on time, with excellent quality. The CEO, Nur Alam Choudhury is a man of great skill, high knowledge and profound expertise. With his business acumen and leadership quality, he has created a well-reputed name in the construction sector. In the UAE, Prestige Constructions will always be our preferred choice."

Abdulaziz Al Jasm, General Manager, R Holding

"Timely execution of projects of any scale. Completely committed and flexible attitude. Working with Prestige Constructions is a pleasure."

Architect Anees Moldeen, Consultant, Proarc Architects & Engineering Consultants

"I have known Mr. Nur Alam Choudhury since quite some time, and found him to be a thorough professional who has always kept his clients' interests in mind before his own.

I personally thank him and his team for the recent works completed for our facility in Emirates Industrial City. What started out to be a relatively straight-forward project soon became problematic with its daily challenges. However, regular contact and communications with him and his team ensured that the job was well under way for its successful completion.

I have nothing, but respect and admiration for Mr. Nur."

Shiraz Jamaji, CEO, Al Huzalfa Furnlture

including the real estate sector as Expo 2020 has already impacted the market and has paved the way for numerous opportunities for the construction industry.

Finally, from a humble beginning to one of the most trusted and reputed construction companies in the UAE and the Middle East, it has been a tremendous journey. Currently, it boasts of approximately 4,000 manpower. In this tumultuous journey, my family has always stood like a strong pillar of support. Undeniably, the commitment and dedication with which my team, headed by Satnam Singh, is working towards target goals is a matter of appreciation.

At Prestige, there is a commitment to study, understand, research, achieve, and surpass international benchmarks, and it accomplishes this by building a performance-driven culture that continues to provide value-added construction services to our customers, by improving job-site productivity, maintaining a safe workplace, utilising the latest technologies and by creating an environment that fosters the growth and development of our people. We provide the desired support to our associates so that they can constantly enhance quality of their own work, and in turn, achieve corporate objectives.

The endeavour of Prestige is always to become the benchmark through consistent delivery of globally standardised quality of construction. This has been made possible because of a 'can do' mindset, being sensitive to changing market dynamics, being proactive to economic, political, social changes, a strong leadership and teamwork.

"A vision is a dream with a plan," Prestige Constructions accomplishes its plans by building a performance-driven culture that continues to provide value-added construction services to its customers. 📍

18 militants killed in military offensive

MIAMI, Fla. — An army offensive against militants in a border area of northern Nigeria on Monday killed 18 militants, including 10 who were captured, according to the Nigerian military, officials said.

The offensive was carried out in the border area of Zamfara state, 30 kilometers west of Abokir, about 100 kilometers from the border with Chad.

The military said it had killed 18 militants and captured 10 others. It also said it had destroyed 10 hideouts and 10 weapons caches. The military said it had also captured 10 weapons and 100 rounds of ammunition.

The military said it had also captured 10 weapons and 100 rounds of ammunition. The military said it had also captured 10 weapons and 100 rounds of ammunition.

Malala pledges help to set schoolgirls free

MEETS PARENTS OF ABDUCTED PUPILS DURING NIGERIA VISIT

MIAMI — Malala Yousafzai, the Pakistani activist for female education, pledged Monday to help set free schoolgirls abducted by militant forces in northern Nigeria.

Malala, who was shot in the head by a Taliban gunman in 2012, met with the parents of 10 schoolgirls abducted in Nigeria in 2012. She said she would help them get their daughters back.

Leaders United by BID Quality Achievement
Prestige Constructions LLC, from United Arab Emirates, winner of the BID International Star for Leadership in Quality Award in Paris 2014

Paris hosted this year's BID International Star for Leadership in Quality Convention, where professionals and business leaders from around the world gathered to recognize excellence and innovation. In particular, the convention celebrated quality in business and operations. Award winners demonstrated commitment to the criteria of the QC 100 TQM Model, which helps bolster customer satisfaction and cost efficiency across all areas of operation.

Among this year's winners, Mr Alan Choudhury of Prestige Constructions LLC, from United Arab Emirates, received the International Star for Leadership in Quality Award in the Gold Category of the BID Quality Convention in Paris. The organization has made huge strides this year as a leader not only within the sector, but also in United Arab Emirates. The award comes as an early sign to celebrate this past year's success while looking forward to putting quality first in the year to come.

Paris, one of the largest cities in Europe, is considered one of the top three most important cities in the world due to its influence in politics, education, entertainment, media, fashion, science and the arts. Paris is home to some of the world's most important international organizations including UNESCO, the Organisation for Economic Co-operation and Development and the International Chamber of Commerce. The Paris urban area boasts a population of over 21 million people and is home to 37 Fortune 500 companies, 33, 3,800 historical monuments and 4 UNESCO World Heritage Sites. It's had more than 40 million tourists per year, making Paris the most visited city in the world and the perfect location for BID's Quality Convention in Paris.

Prestige Constructions LLC was the International Star for Leadership in Quality Award in the Gold category in Paris in the presence of leaders and representatives from six countries at the International Star for Leadership in Quality Convention. The program award is presented by Venkatesh Sathyan, Executive Director of Oracle Park, San Antonio; from left to right: Alan S. Pines, President and CEO of Pines SA, San Antonio; Chao Choudhury, CEO of Prestige Constructions and Alan S. Pines, President of the QC 100.

GROUP COMPANIES

With an ambition of diversification and expansion, a number of associate business establishments were formed that complemented Prestige's core construction activities. Profitability, Professionalism and on time delivery were the vital factors which led the formation of two individual companies i.e. PRESTIGE Electromechanical Division and RAHANAR Management Consultancy. This is how Prestige Group was initiated and have already carved its own niche in the business environment of the UAE. A brief of each of these two companies are outlined below:

PRESTIGE Electromechanical Division offers comprehensive MEP works services for Commercial, Industrial and Residential Infrastructure. The principal objects of the Company are:

- Sewage and drainage Contracting
- Air Conditioning, Ventilations and air Filtration Systems Installation and Maintenance
- Electromechanical Equipment Installation and maintenance
- Security and Surveillance Systems
- Internal Communication network Installation and Maintenance
- Plumbing and sanitary Contracting
- Electrical fitting contracting
- Fire Fighting safety equipment installation
- Solar Energy systems contracting
- Security control and Alarm equipment Trading

PRESTIGE Electromechanical Division is a full service mechanical and electrical engineering firm, which subscribes to a total system approach. It, therefore, promotes a coordinated team effort with specialists in diverse range disciplines having unique capabilities for execution of the complete electromechanical solution. PRESTIGE Electromechanical division undertakes design, installation, testing, commissioning and maintenance of high rise commercial and residential buildings, hotels, shopping and sports complexes, factories, workshops, schools and showrooms. Since its inception it has undertaken projects of all sizes ranging from villas to warehouses, commercial, residential buildings, shopping malls, schools etc. being specialist in Electrical, L.V & ELV Systems, Plumbing & Drainage Systems, HVAC, Fire alarm, Voice Evacuation, Fire Fighting, Sprinkler, CO Monitoring, Security systems, Lighting control, CCTV, SMATV, B.M.S, PA/BGM, Intercom, Structured cabling Systems etc. The highly skilled and dedicated team of qualified and experienced engineers, supervisors, foremen and skilled technicians demonstrate that it has the necessary infrastructure, technical expertise and experience to handle electromechanical contracts of any magnitude in all disciplines. Electromechanical engineering is a service business with each project being approached with a high degree of professionalism by each and every one of its employees. It remains the company's goal to complete not just one project for clients, but to help service all of their requirements.

RAHANAR Management Consultancy FZC was established with a philosophy that each client is a unique business entity who must be provided with not only professional services but also advanced management solutions. The solutions it offers are based on extensive construction industry experiences which are exclusively customized, practical and broad in nature. It assists clients to help hire the best contractors for constructing their infrastructure, be it residential, commercial, retail, industrial etc. and to monitor each and every aspect of construction related activities. In simple words, RAHANAR acts as an agent to make perfect coordination among client, consultant and contractor. The expertise and existing infrastructure of Prestige Constructions help RAHANAR in formulating unique and effective strategies for each of its clients.

Prestige Constructions LLC is committed to conduct construction activities in a manner that protects the health and safety of all personnel involved in its operations, to respect and care for the environment and to preserve the physical resources of the company. Our Company puts emphasis on internally improving the physical and social environments in which employees operate in. We constantly perform risk management techniques to identify the dangers employees can encounter in the workplace. Preventing these problems are highly beneficial and results have shown that a safe and hygienic environment always leads to higher productivity.

We are implementing our procedures and policies in compliance with ISO 9001 standards to ensure employee safety and health with control environment in collaboration with top Management. In QHSE (Quality, Health, Safety & Environment), Prestige continues to be one of the leading companies in terms of HSE within the sector it operates. It puts effort to improve the performance in QHSE Management System and to continually improve Quality, Health & Safety and Environmental performance which is one of our key strategic objectives, all of these adding value to our associates, clients, customers and community as a whole. The quality of work executed by us brings value to our clients and justifies their decisions to have business relation with us.

Prestige Constructions is an ISO certified organization that maintains an Integrated Management system complying with the following International Standards:

- ISO 9001:2015 Quality Management System
- QRS 14001:2015 Environmental Management System
- OHSAS 45001:2018 Occupational Health and Safety Management Systems
- QC 100: 2014 Total Quality Management
- Quality in Business Certificate by International Trade Council (ITC), 2019

We seek further suggestions from you to assist us in realizing our health and safety objectives to create a safe working environment with a zero accident rate.

Prestige believes in “SAFETY IS PRIORITY”.

QUALITY POLICY

To carve niche of excellence in the construction industry by providing superior services, on-time completion, high quality and excellent performance with utmost satisfaction of the clients. We strive to offer innovative solutions tailored to the specific need of our valued clients. Prestige's health, safety and environment (HSE) policy and practices centres on a zero-harm philosophy towards people and the environment it operates. It consistently enforces a standard approach to HSE and does not compromise its standards of conduct. Quality is of paramount importance to all team members at Prestige.

Prestige takes pride of the quality it offers to its clients which is regularly being evaluated and monitored to improve the level of service. Our Quality system is an integral part of our companies management activity and is implemented through a comprehensive set of procedures and controls which are documented in accordance with ISO 9001:2015. Our Quality system is an integral part of our existing management process which sets the high standards of co-operation required by all members of staff to ensure that the quality of service we provide to our clients is second to none.

OBJECTIVES

- Usage of best materials for high quality construction
- Monitoring of quality at each and every stage
- Adoption of updated know how for the enhancement of performance
- Emphasis on time bound execution
- Immediate action upon customer complaints and suggestions
- Prompt in handling over disputes within stipulated time

HSE POLICY

- Ensure education, interest and awareness training of new employees in safe working methods before the assumption of duty.
- Ensure safety and welfare of staff and protection of asset.
- Educate employees through proper education and training to understand HSE accountabilities and the consequence of non-compliance.
- Ensure that organization is a safe place, and the environment, facilities, equipment and substances are subject to safe systems of work to prevent risks to health and safety.
- Continued improvement of HSE policies which reflects best industry practices.
- Promote personal responsibility and effort on the part of everyone to avoid and prevent health hazards and injuries to themselves and to others who may be affected by their acts or omissions and to cooperate with the organization to comply with its duties, requirements and statutory obligations.
- Continually improve HSE performance so that work related health incidents and environmental emissions, waste and the use of energy are reduced.
- Use of defensive driving technique by drivers and machine operators.
- Monitor effectiveness of safety policy.
- Display and publicize this statement and review it at least bi-annually.
- Monitoring effectiveness of HSE Policy.

SUSTAINABILITY

At Prestige, our commitment to sustainability implies putting effort to deliver Green Building solution to our clients, on reducing environmental impact of our operation, on educating and training our employees. Sustainable building projects certainly produce higher employee productivity and improved building efficiencies. Sustainability is implemented in all our projects having an inclusive and coordinated approach that involves core engineering and construction functions. This approach includes conceptualizing, designing, and building the best projects for our valued clients and setting standards for the construction industry.

Registration No. WorldCOB - CSR 0312-2016

Corporate Social Responsibility Certificate
Received from World Confederation of Business, Houston, USA

Most Trusted Construction Company - UAE

Prestige Constructions L.L.C.

Prestige Constructions L.L.C. is dedicated the pursuit of excellence in the construction industry and has worked on successful projects across the UAE region.

The UAE, one of a fastest growing economies, has witnessed the fastest growing retail and commercial growth region globally. As such the region is home to a number of new commercial and retail developments, from commercial office spaces to large hypermarkets, department stores and shopping centres.

Over the years, the company has grown from strength to strength, laying each brick with strong ethics and morals. This development has been and is focused and fully diversified across the various of residential, retail, educational, social and industrial.

The firm's work speaks for itself, highlighting their dedication to quality and superior service. The wide range of projects the company has successfully completed over the years highlight their passion to think beyond expectations and achieve any dream into an immediate tangible experience.

Prestige Constructions has always had emphasis on sustainable growth and has therefore remained itself with the latest construction technologies and implementation of the best industry practices. For decades, with each project and with each square foot built, Prestige Constructions has become the reputation it is today.

With their vision to establish an overall reputation of "under control, over delivery" (in terms of time, cost and overall client expectations), the firm consistently stays on schedule and the pursuit of perfection in every project they embark upon.

Additionally the firm aims to become the industry benchmark through consistent delivery of globally standard quality of construction. As such, they undertake a great deal of research and keep themselves up to date with the latest industry and

regulatory developments to ensure their work is always compliant as well as high quality.

The firm currently has a very strong presence in the United Arab Emirates and is here to assist you need to expand into new markets to offer its world leading services to new clients and also engage in new exciting projects.

The Company has been awarded by many well reputed international organizations for its Leadership, excellence and strong commitment to quality. To name a few:

- International Star for Leadership in Quality Award, 2014 by Business Initiative Directorate (BID) in Paris.
- The Success Awards, 2014 for Best Enterprise Award by Europe Business Assembly (EBA) in Vienna.
- The Success Awards, 2014 for Manager of the Year Award by Europe Business Assembly (EBA) in Vienna.
